

COFFEE COUNTY 2025 PEANUT DEMOSTRATION GRANT REPORT

PEANUT VARIETY TRIAL SUPPORT

PEANUT VARIETY TRIAL OPEN HOUSE

- Planted eight variety trial plot, with mostly new varieties, to test and compare yields, grades, and disease pressure.
- We used part of the funds to reimburse the farmer for seed provided to the trial plot and to pay for farmers lunch when we harvested the trial plot.

I hosted a drop-by open house so growers and industry could view the trial plot. The peanuts were 113 days old. 15 growers and industry professionals came by to view the plot. Funds were used to make signs for each variety and purchase donuts and drinks.

Any remaining funds were used to host the annual peanut production meeting on Jan 13, 2026 with 62 farmers present or will be used on 2026 peanut research projects.
